

# IWETL240-1 Tower light

IWE's Australian Made IWETL240-1 Tower lights embody cutting edge technology with class leading efficacy of 200 lumens per watt. They are powered by IWE's in house designed, engineered and manufactured driver. The IWETL240-1 tower light is the result of ten years of association with specialty light tower LED lights. IWETL240-1 LED lights are compact but designed specifically to survive mining and construction environments

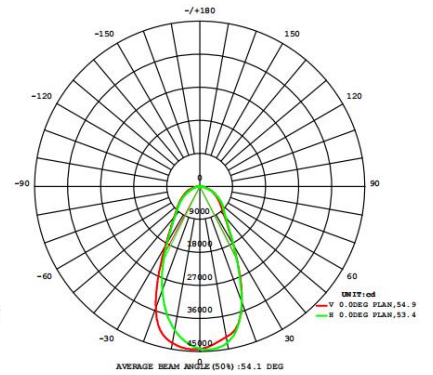

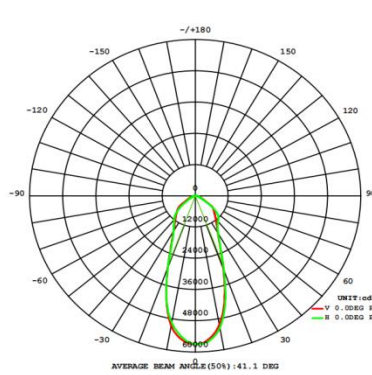

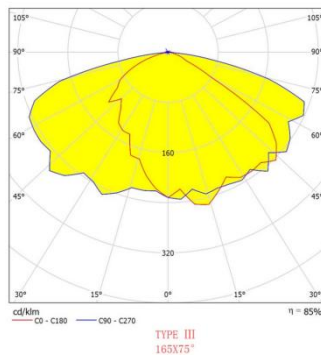

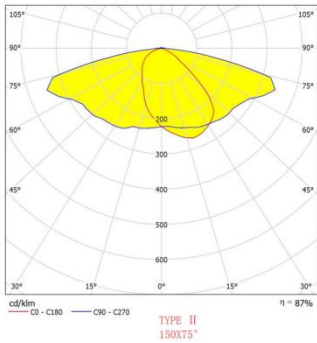

## Key features:

- Steel brackets
- IP65 Rating
- 200lm/w high lumen efficiency
- Class leading driver design features include a) over current protection b) short circuit protection c) reverse polarity protection d) over temperature protection
- 0-10 VDC dimming circuit
- Aluminum extruded housing for efficient heat dissipation
- Polycarbonate long life lens
- Weight 11kg

## Beam Angles

## Product Configuration:

Model	Supply VDC	LED Module	LED Power	Beam Angle	LED Color Temp	LED efficacy	Finish	Options
IWETL240-1	48 - 60VDC	2	80W	2-TYPE III	3000K	200lm/w	Black Silver	DC-DC by IWE
		3	120W	36°	4000K			
		4	160W	60°	5000K			
		5	200W	90°	6000K			
		6	240W					
		7	280W					
		8	320W
